kresto®

Tradition, Texture & Timeless design.

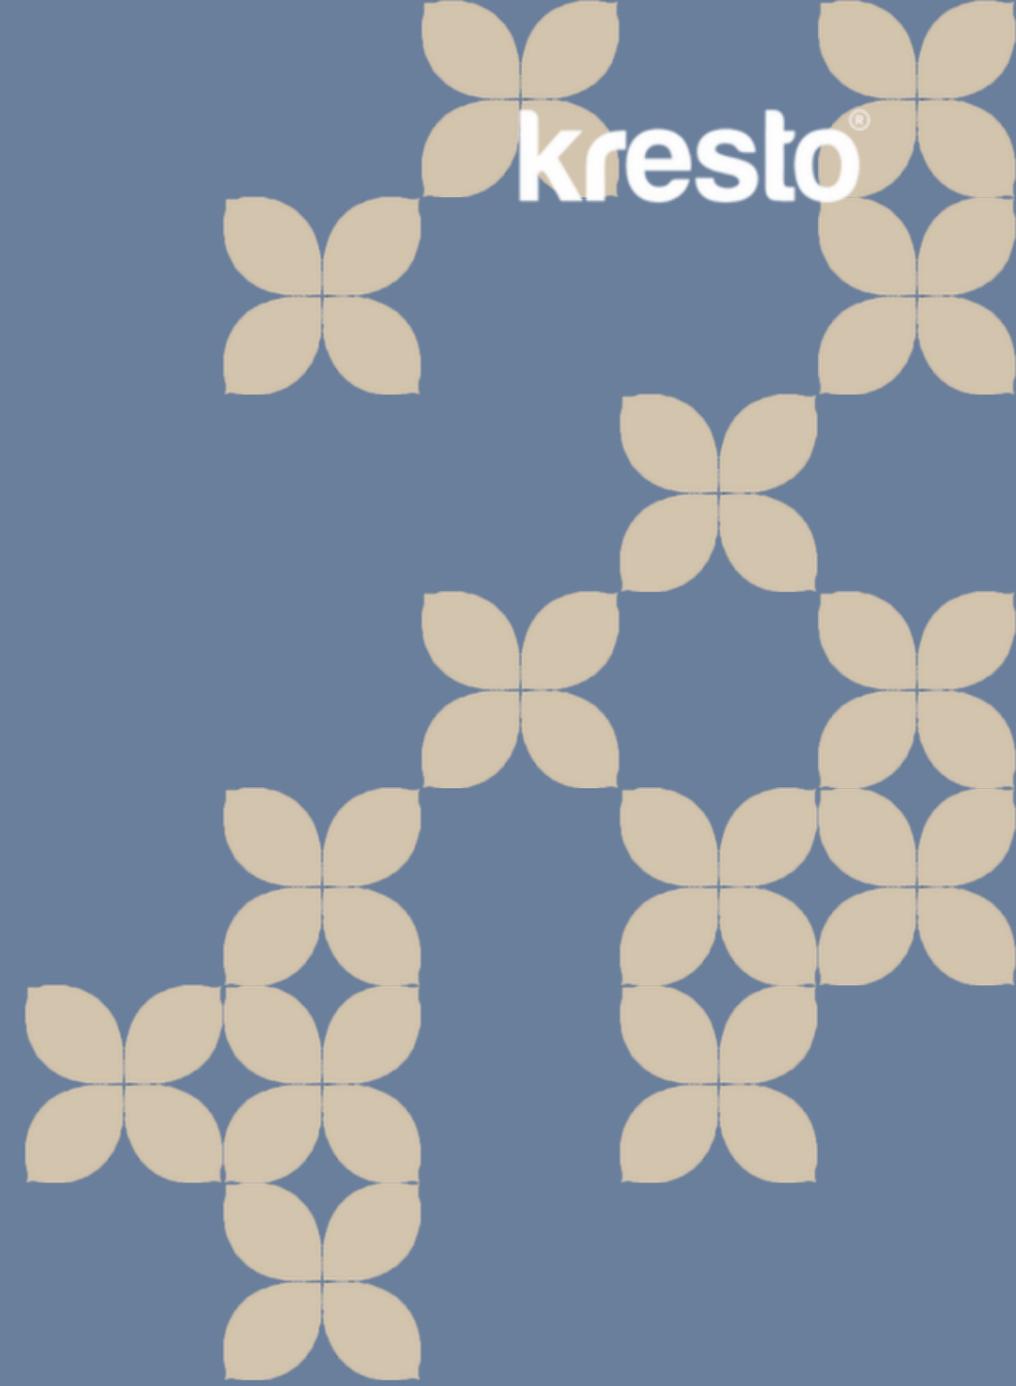

Inspired by the timeless artistry of handcrafted Athangudi tiles, Keda Ceramic presents a modern reinterpretation in a grand 60×60 cm format. These tiles capture the vibrant motifs, intricate floral and geometric patterns, and rich colour palette that Athangudi is known for, while blending them with the precision and durability of advanced ceramic technology.

Crafted with digital printing on a high-performance ceramic body, each tile showcases the authentic charm of Athangudi designs, scaled to suit contemporary spaces. The glossy or semi-gloss finishes echo the traditional glass-like sheen of handmade tiles, yet the industrial process ensures flawless consistency, smooth edges, and superior strength. Unlike traditional Athangudi tiles that are often limited to smaller sizes, the 600×600 mm dimension offers a bold, expansive canvas that reduces joint lines, creating a seamless and striking floor layout.

Iconic Format

The Iconic Format 60×60 cm Ceramic Tiles combine modern style with practical functionality, offering a perfect balance of elegance and durability. With advanced digital printing, they replicate marble, stone, wood, or contemporary patterns with stunning detail, while the large 60×60 cm size reduces grout lines to create a seamless, spacious look.
